Adviser Scorecard

To help with your decision making, we recommend scoring prospective Advisers on a scale ranging from 1-5 (1 where the answer/evidence is not satisfactory, 5 where the answer/evidence is extremely compelling) and highlighting topics of concern with an exclamation mark (!).

This is useful when comparing different service providers but first you need to understand what's most important to you and your business. It's up to you to decide where you require higher scores and what your lowest acceptable scores are on various questions. Any areas that concern you may need further investigation or result in automatic exclusion.

For sample questions to ask prospective advisers see our free helpful **Questions to Ask Prospective Advisers** booklet.
